

As we give thanks this week, let's remember our service men and women who are tirelessly defending freedom around the world. Let's also remember the victims of Hurricane Sandy and the many displaced families in the northeast.

This past month I have visited Northeast, Northwest and Southeast Schools. Last night Cub Scouts sat in the Mayor, Manager and Council's seats as we discussed local government. Our community is thankful for our future leaders. I am also thankful for my family, friends and this community. May each of you enjoy your families, full bellies and football this week.

Respectfully,
Mayor, BJ Murphy
