The Chief Range Safety Officer (CRSO) or assigned Range Safety Officer (RSO) is in charge of each live fire shooting range. When a range is in use the CRSO or a certified RSO must be supervising range safety operation. The RSO’s are not to be utilized as range “instructors”. Their primary purpose is RANGE SAFETY.

1. General
Live firing conducted on the shooting sports ranges of the East Carolina Council, BSA is designed to provide authorized users access to a safe facility where they can become proficient with firearms and/or participate in council sponsored live fire shooting events.

2. Facilities for Use
Range availability is at the discretion of the Camp Director and/or Property Manager. The Camp Director/Property Manager will establish the operational days and times for the range operations. The Camp Director/Property Manager may close all or part of the ranges for other activities or for safety concerns. Reservations to use the range facilities must be conducted through the council service center utilizing the appropriate camp property usage permit & procedure form. The Camp Director/Property Manager will arrange for the proper certified personal to be on-hand during the operation of the council shooting sports ranges. Non scout groups utilizing the range facilities must abide by all established camp range rules and policies.

3. General Rules, Policies, and Safety Requirements
The Chief Range Safety Officer (CRSO), in cooperation with the Council Shooting Sports Committee, will make all decisions regarding range safety rules & policies. These decisions are final. The Range Safety Officer (RSO) on duty handles the operation of the each range and is responsible for all safety and gun handling practices while the range is in operation.

All established operational procedures, guidelines, policies, and rules will abide by the following:

a. Guide to Safe Scouting, Section VII
b. Camp Program & Properties Manual, Chapter 6
c. Current year National Camp Standards
General rules:

a. Treat all firearms as if they are loaded at all times
b. Keep finger off the trigger until aimed at target
c. Never let the muzzle cover anything you are not willing to destroy
d. Know the target and what is beyond
e. No intoxicating substances of any kind or intoxicated people are allowed on the range
f. Cooperate with others as to cease fire commands for target placement and obey all range commands
g. Shoot only in the appropriate direction from the designated firing lines
h. Fire at authorized targets only
g. Police all brass, paper, and other debris that accumulates on the range
   Dispose of them in the containers provided
i. Fire only on designated ranges
j. Fire only authorized firearms and ammunition
k. Use of appropriate ear and eye protection is mandatory for all individuals
l. Ensure all projectiles impact within the established range safety limits
m. Call “Cease fire” and make safe all firearms when observing any unsafe condition or when a shooter moves forward of the firing line
n. Notify the Chief Range Safety Officer (CRSO) or Shooting Sports Committee Chairman of any safety infractions
o. Do not climb on the berm
p. Log range usage and comments into the range log book
q. Children are to be supervised and under the control of an adult at all times

4. Authorized Usage & Prohibited Firearms and Ammunition

a. No “rifle” caliber larger than .22 LR or high power rifle shell is allowed on the rifle range
b. No black powder shot larger than .50 calibers is to be used
c. Larger caliber pistols may be used by Venturing Scouts if approved by the RSO
d. No pistols larger than .357 caliber is authorized
e. No armor piercing or tracer ammunition is to be used
f. All personal firearms brought on to camp property must be locked in the range armory upon arrival
g. All ammunition must be “locked” in a separate container from firearms
h. No fully automatic firearms are to be utilized
i. # 7 or smaller shot is to be used on the shotgun range
5. **Authorized Targets**  
   a. Paper and cardboard only  
   b. Metallic targets must be approved by the CRSO  
   c. No cylindrical or spherical objects that could shatter or cause ricochets  
   d. Rifle/pistol targets must be **twenty-four** inches from ground level and never more than two-thirds up the target stand.  
   e. Only approved clay skeet are to be used on the shotgun range

6. **Authorized Personnel Usage**  
   a. Current members of the Boy Scouts of America as authorized in the Guide To Safe Scouting & Age Appropriated Guidelines for BSA Activities  
   b. Immediate family members or invited guests of the above provided the authorized person is present and assumes full responsibility for the conduct of his or her guest(s),  
   c. Individuals approved by the ECC or CRSO on a case-by-case basis.  
   d. Participants in council sponsored shooting sports activities

7. **Non-Scout Groups or Organizations**  
   Non-scout groups and organizations are encouraged to use the camp shooting sports facilities. All property and range rules, policies, and procedures will apply  
   a. Council camp usage/permitting procedures are to be followed  
   b. If the group or organization does not have a currently certified NRA Instructor & CRSO/RSO one will be provided  
   c. Groups and organizations are to supply their own ammunition and firearms unless otherwise noted

8. **Range Personnel**  
   a. **Chief Range Safety Officer (CRSO)**  
      (1) The CRSO is appointed by & reports to the Council Camping Committee Chairman. The CRSO will assume the position of the Council Shooting Sports Committee Chairman under the direction of the Council Camping Chairman.  
      (2) The CRSO must be 21 years old & a NRA Certified CRSO.  
      (3) The CRSO, or his designated representative, is responsible for the continued safe operation of the range. If an unsafe condition **exists**, he will cause the **shutdown** of that portion of the range complex and inform the Camp Director/Property Manager of the condition what caused the shutdown.  
   b. **Range Safety Officers (RSO)**  
      (1) The RSO is approved by the council CRSO.  
      (2) All RSO’s must be 21 years old & currently certified by the NRA as an RSO
(3) The RSO must complete a range orientation conducted by the CRSO or his/her designee
(4) The RSO will conduct the general daily operation for each range
(5) The RSO will report all serious problems or issues to the CRSO and enter them into the Range Log
(6) RSO’s are to conduct the Range Safety Brief with any group utilizing the live fire ranges.
(7) The Archery Range Instructor/Safety Officer must be certified by a National Camp School certified Shooting Sports Director. Trained card # 33767A is to be issued. The trained card is valid for two years.
(8) When shooting black powder rifles there is to be a ratio of one instructor/coach per shooter.
(9) When shooting pistols there is to be a ratio of one instructor/coach per (3) three shooters
(10) All Cub Scout BB Gun activities must be supervised by a certified safety officer 18 years old or older and currently trained by a National Camp School Shooting Sports Director. Trained card # 33767A is to be issued. The trained card is valid for two years.

c. Shooting Sports Instructors
(1) All live fire training activities must be supervised by a currently certified NRA Instructor (in that discipline) and additionally when on the range, must be supervised by a currently certified NRA Range Safety Officer. The RSO and NRA Instructor are not the same person.

d. Range Assistant
(1) Assist the Range Safety Officer in daily range operations
(2) Monitor Range Rules
(3) Periodically walk the ranges to ensure safety rules and Range Rules are observed
(4) Perform minor range maintenance, cleaning and general upkeep.
(5) Repair and re-face target frames
(6) Perform other duties assigned by the Range Safety Officer and/or the Camp Ranger, Camp Director/Property Manager or Shooting Sports Director.

9. Range Areas
 a. All ranges –
(1) Each range must have an NRA Certified RSO on duty at all times when in use. RSO will insure all in attendance comply with all general rules, policies, and safety requirements.
(2) A Range Safety Brief is conducted whenever “new” group of shooters is on the range. The brief is conducted at the entrance to the range area in a position where all can visually see the range locations and safety markers.

(1) General rules
   i. Groups must have their usage permit/tour permit available while on the range
   ii. Always close entry gate when you enter or exit
   iii. Check downrange for other shooters or range maintenance personnel.
   iv. Be prepared to share the range facilities with others. Be cooperative
   v. Red flag indicates the range is in use
   vi. Always use approved eye and ear protection

(2) Rifle range
   i. Do not shoot across the range to other than your position target
   ii. Do not shoot at the ground, at non-approved targets, or above the berm

(3) Shotgun Area
   i. Number 7 shot or smaller. No slugs!
   ii. Throw clay targets in the approved direction
   iii. No handguns or rifles on the shotgun range

(4) Archery Range
   i. Do not dry-fire bows
   ii. Use approved target arrows only
   iii. Always aim at approved target butts

10. Alcoholic Beverages and Drugs
    Shooters may not consume alcoholic beverages or drugs (including prescription and over-the-counter medications) before or during live firing. The CRSO or RSO will deny range access to anyone in violation.

11. Emergency Procedures
    ❖ RSO will take charge of the situation. (Determine seriousness of injury)
    ❖ All RSO are encouraged to have ARC 1st Aid and CPR training
    ❖ Render first aid if qualified
    ❖ Call the Camp Medical Officer or Camp Ranger (EMT) if required
    ❖ Call 911 for help via cellular telephone if necessary.
    ❖ Direct help to location
      Assign one person to the main camp entrance to direct emergency vehicles
      Assign one person to the range access road to direct emergency vehicles
Take notes. Note event in the Range Log

RSO CHECKLIST OF RESPONSIBLY

12. **RSO RUNNING THE RIFLE RANGE**
   1. Identify the Range Safety Officer
   2. Review: Three Safety Rules poster
      a. Always keep the gun pointed in a safe direction
      b. Always keep your finger off the trigger until ready to shoot
      c. Always keep the gun unloaded until ready to shoot
   3. Review: Range Safety Rules
      a. Cease Fire! (May be shouted by anyone for a safety issue)
      b. Eye and ear protection is mandatory for everyone on the range
      c. Misfires must be flagged and cleared in position on the range
      d. Cleaning hands and face after a shooting session is mandatory
   4. Prepare target area (set targets)
   5. Prepare firearms for shooting (safe handling protocol)
   6. Place firearms at shooting stations (safe handling protocol)
   7. Set up ammunition with ammo blocks (adult supervised until stored)
   8. Place range border caution signs (100 ft apart) and section ropes out
   9. Place eye and ear protection at each firing point
   10. Begin each live fire exercise with new groups with the rifle portion of the Range Safety Brief
   11. All ammunition is gathered and stored in locker
   12. Firearms are gathered, cleaned and stored after daily use
   13. Recover & store border caution signs and section ropes
   14. Targets and equipment are gathered and stored
   15. Police the area for brass, water bottles, targets, and trash – pack it out!

13. **RSO RUNNING THE SHOTGUN RANGE**
   1. Identify the Range Safety Officer
   2. Review: Three Safety Rules
      a. Always keep the gun pointed in a safe direction.
      b. Always keep your finger off the trigger until ready to shoot.
      c. Always keep the gun unloaded until ready to shoot.
   3. Review: Range Safety Rules
      a. Cease Fire! (May be shouted by anyone for a safety issue)
      b. Eye and ear protection is mandatory for everyone on the range
c. Misfires must be flagged and cleared by the RSO in position on the range
d. Cleaning hands and face after a shooting session is mandatory

4. Prepare target area/throw sighting clays
5. Prepare firearms for shooting (safe handling protocol)
6. Place firearms at shooting stations (safe handling protocol)
7. Set up ammunition (adult supervised until stored)
8. Charge battery for skeet machines/set up machines
9. Place range border caution signs (100 ft apart) and section ropes out
10. Begin each live fire exercise with “new” groups with the shotgun portion of the
    Range Safety Brief
11. All ammunition is gathered and stored
12. Firearms are gathered, cleaned and stored after daily use
13. Targets and equipment are gathered and stored
14. Make SAFE the skeet machines. Remove batteries
15. Recover & store border caution signs and section ropes
16. Police the area for hulls, water bottles, targets, and trash – pack it out!

14. RSO RUNNING THE MUZZLELOADER RIFLE RANGE

    1. Identify the Range Safety Officer
       a. There is to be one instructor/coach per shooter

    2. Review: Three Safety Rules
       a. Always keep the gun pointed in a safe direction.
       b. Always keep your finger off the trigger until ready to shoot.
       c. Always keep the gun unloaded until ready to shoot.

    3. Review: Range Safety Rules
       a. Cease Fire! (May be shouted by anyone for a safety issue)
       b. Eye and ear protection is mandatory for everyone on the range
       c. Misfires must be flagged and cleared in position on the range
       d. Cleaning hands and face after a shooting session is mandatory

    4. Prepare target area (set targets)
      Place eye and ear protection at each firing point
    5. Prepare firearms for shooting (safe handling protocol).
    6. Place firearms at shooting stations (safe handling protocol)
    7. Set up ammunition (adult supervised until stored)
    8. Place range border caution signs and section ropes out
    9. Begin live fire exercise with “new” groups with the muzzle loading portion of the
        Range Safety Brief
   10. All ammunition & powder is gathered and stored in lock box
11. Recover & store border caution signs and section ropes
11. Firearms are gathered, cleaned and stored after daily use
12. Targets and equipment are gathered and stored
13. Police the area for brass, water bottles, targets, and trash – pack it out!

15. **RSO RUNNING THE PISTOL RANGE FOR VENTURING SCOUTS** (Pistol shooting will take place on the 50 foot rifle range utilizing B-2 Pistol Targets)
   1. Identify the Range Safety Officer
   2. There must be a ratio of one instructor/coach per three shooters
   3. All shooters must complete a NRA basic pistol course prior to range firing
   4. Review: Three Safety Rules poster
      a. Always keep the gun pointed in a safe direction
      b. Always keep your finger off the trigger until ready to shoot
      c. Always keep the gun unloaded until ready to shoot
   5. Review: Range Safety Rules
      a. Cease Fire! (May be shouted by anyone for a safety issue)
      b. Eye and ear protection is mandatory for everyone on the range
      c. Misfires must be flagged and cleared in position on the range
      d. Cleaning hands and face after a shooting session is mandatory
   6. Prepare target area (set targets)
   7. Prepare firearms for shooting (safe handling protocol)
   8. Place firearms at shooting stations (safe handling protocol)
   9. Set up ammunition (adult supervised until stored)
  10. Place range border caution signs and section ropes out
  11. Place eye and ear protection at each firing point
  12. Begin each live fire exercise with a new group with the Pistol Range Safety Brief
  13. All ammunition is gathered and stored in locker
  14. Firearms are gathered, cleaned and stored after daily use
  15. Targets and equipment are gathered and stored
  16. Recover & store border caution signs and section ropes
  17. Police the area for brass, water bottles, targets, and trash – pack it out!

16. **SAFETY OFFICER RUNNING THE ARCHERY RANGE**
   1. Identify the Safety Officer
   2. Review: Three main safety rules for archery
      a. Shooting Line rules
      b. Retrieving Arrow rules
c. Shooting Line & Range command rules

3. Review: Range Safety Rules
   a. Stop or Cease Fire! (May be shouted by anyone for a safety issue)
   b. Eye protection is mandatory for everyone on the range

4. Prepare target area (set out target stands and target)
5. Prepare bows & arrows for shooting (safe handling protocol)
6. Place bows and arrows at shooting stations (safe handling protocol)
7. Place range limit markers and section ropes out
8. Place eye protection, finger tabs, & arm guards at each firing point
9. Begin each live fire exercise with “new” groups with the archery portion of the Range Safety Brief
10. All equipment is gathered and stored in locker
11. Recover & store limit caution signs and section ropes
12. Police the area for brass, water bottles, targets, and trash – pack it out!
NRA Gun Safety Rules

Three Fundamental NRA Rules for Safe Gun Handling

1. Always keep the gun pointed in a safe direction.
2. Always keep your finger off the trigger until ready to shoot.
3. Always keep the gun unloaded until ready to use.

Rules for Safe Gun Use

1. Know your target and what is beyond.
2. Be sure the gun is safe to operate.
3. Know how to use the gun safely.
4. Use only the correct ammunition for your gun.
5. Wear eye and ear protection as appropriate.
6. Never use alcohol or drugs before or while shooting.
7. Know and obey all range commands.
8. Know where others are at all times.
9. Shoot only at authorized targets.
10. Do not handle a firearm or stand at the firing line where firearms are present while others are downrange.
11. Stop shooting immediately upon the command of “Cease Firing.”

NRA Hygiene Guidelines

• Refrain from eating, drinking, smoking, applying makeup, or otherwise placing hands in proximity to the mouth or nose while on the range or cleaning a gun.
• Wash your hands and face with cold water after leaving the range or cleaning area before eating, or drinking.
• Change and wash clothing after shooting or gun cleaning session to minimize exposure airborne particulate lead or solvent and cleaning product residues.
Range Safety Brief & Range Commands

Purpose

“Welcome to the Camp Boddie Shooting Sports Range. On the range we conduct Rifle, Shotgun and Archery merit badge sessions. During the summer we also conduct evening twilight shoots on all ranges. On Friday afternoon we hold the Scoutmaster/SPL Turkey Shoot and the NRA Postal Match at the rifle range. Pistol shooting for Venturing Scouts is also available”

“Each range has its own Instructor & Range Safety Officer whose responsibility it is to conduct instruction and provide a safe shooting environment for all participants.”

On the Rifle Range we have ____________.

On the Shot Gun Range is ____________.

The Archery Range has ____________.

Range Layout & Limits

“The range complex has boundary markers that mark the outside limits of the range area and also act as warning markers to keep everyone out of the range danger areas. There is only one entrance to the range and that is by the access road you just came down. At no time should you go over or under any boundary marker to enter any range area.”

“All ranges have access gates that allow entrance to that particular range. You must stop at the gate and ask permission from the instructor/RSO before entering the range.”

“Each range has designated spectator areas, ready line, firing line, and target identifiers. Your instructor/RSO will cover in detail the operation for each range.”

General Range Safety Rules

“I direct your attention to the flag pole in the middle of the range area. On the pole is flown a RED flag. If the flag is all the way up, it means the range is open and you may enter the range and proceed to your program area. If the flag is down, then the range is closed and you should not enter any further than the range latrine.”

“Each range has limit markers on the left and right side of the shooting range. At no time should you aim or shoot your rifle, shotgun, pistol or arrows outside those limit markers. Care should also be taken in the elevation of your rifle, pistol, shotgun, or bow.”
“The range is closed to all campers except during scheduled program times.”

“There is no running on any range.”

“Never carry LIVE ammunition off the range. If you find live ammunition return it to your instructor.”

“Each range has additional safety rules that are particular to that range. The instructors will cover those rules during the program periods. Please follow all rules and instructions.”

**Emergency Procedures**

“If an emergency situation accrue while on the range, the range RSO/Safety Officer is in charge. All participants should immediately make their firearm safe and remain calm.”

**Range Safety Brief/Rules, Rifle**

“There are three fundamental rules for Gun Safety:

*Always keep the gun pointed in a safe direction.* For our purposes, the only safe directions are with the barrel pointed UP or with the barrel point DOWN-RANGE toward the target area (demonstrate). This includes moving around the firing line with your rifle. Always keep the barrel pointed up when off the line.

*Always keep your finger off the trigger until ready to shoot.* Your trigger finger should lay above the trigger guard with the finger extended (demonstrate). Never leave your trigger finger on the trigger.

*Always keep the gun unloaded until ready to use.* You will be given the command to load your rifle. Only then will you place a round in the chamber. At all other times you must keep your bolt open and bolt pulled to the rear. All rifles are equipped with a safety device. The safety is a mechanical device that can fail. Our indicator that your rifle is safe is the bolt open and pulled to the rear (demonstrate).

**Rifle Firing Line & Range Commands**

“There are eight shooting points on the firing line running from left to right. The target identifiers are numbered the same way, 1-8, left to right. Make sure that you are aiming at your own target when shooting.”

“Please note the limit markers on each side of the target area. At no time are you to aim outside the limit markers. Take care in elevating your rifle. Do not aim your rifle up to such a degree that you could fire over the berm.”

Ecctc2009

Revised 5/4/2011
“You will be called to the firing line in groups of eight or less. At that time you may select a shooting position, have a seat, and wait for further instructions. At no time are you to touch the rifle until told to do so.”

“You will receive range commands that will walk you through the live fire exercise. Do not anticipate any commands.”

Review Rifle Range Commands & Procedures

- **“READY ON THE FIRING LINE”** shooters to take their assigned place at their firing point, put on the safety equipment, pick up the rifle & take up a good shooting position, but do not load. Return rifle to the bench rest when ready.”

- **“READY ON THE RIGHT, READY ON THE LEFT”** All shooters are in a good shooting position and ready to load.

- **“IS THE LINE READY?”** allows a shooter with problems to raise their hand. The range officer will immediately state: “**THE LINE IS NOT READY**” if a problem is noted. “**THE LINE IS READY**” means all shooters are ready to begin.”

- **“LOAD”** means shooters are given permission to pick up their rifles, load the authorized number of rounds, and prepare for the shooting event.”

- **“COMMENCE FIRING!”** signals shooters to begin shooting. This command may be signaled verbally, by a whistle or other means. Once shooters have shot the allotted number of rounds, rifles should be returned to the bench rest with actions opened and bolts to the rear. If at any time you have problems (a miss-fire, jam, or mechanical issue) *keep the rifle pointed down range and raise your hand for assistance.*

- **“CEASE FIRE - CEASE FIRE – CEASE FIRE!”** is called by anyone if any incident occurs that indicates possible injury to some living thing should firing continue. Bolts should be opened, pulled to the rear and rifles returned to the rest.”

- **“CEASE FIRE—ACTIONS OPEN!”** notifies shooters to that all rounds have been fired, all rifle chambers and magazines are unloaded with bolts to the rear with rifles returned to the bench rest.”
“IS THE LINE SAFE?” all rifles are unloaded and bolts are to the rear. “THE LINE IS SAFE” indicates that it is now safe to move on the firing line.”

Other commands you may hear

- “AS YOU WERE” means to disregard the command just given.
- “CARRY ON” means to proceed with whatever was being done before the interruption occurred.

“After THE LINE IS SAFE command you will be directed to remove the ear & eye protection, stand up, clean up your spent brass, and proceed to the target area to remove/replace your target. You will then return to the firing line or to the ready line to prepare for the next relay. At no time should you stand up or move away from the firing line until told to do so.”

Emergency Procedures, Hygiene, & Personal Conduct

“If there are any medical emergencies on the range they will be handled by the range instructors or the camp medical officer. Each range is equipped with a 1st Aid Kit for minor medical issues, fire extinguisher, and communications to call for medical assistance. If there is a medical emergency all shooters should immediately clear their rifles, place the bolts to the rear and return their rifle to the bench rest. Remain seated until given further instructions.”

“There is no eating or drinking on the firing line. The Ready line should be kept free of trash and all personal items placed under the bench.”

“Lead particles and cleaning products are harmful if ingested in large amounts. All participants on the range are encouraged to wash their face and hands with cold water after shooting. Water is available at the range latrine.”

“Horse-play, loud talking or shouting, and unnecessary movement on the ready line will not be tolerated.”

Range Safety Brief/Rules, Shotgun

“There are three fundamental rules for Gun Safety;”

*Always keep the gun pointed in a safe direction.* For our purposes, the only safe directions are with the barrel pointed UP or with the barrel point DOWN-RANGE toward the target area (demonstrate). This includes moving around the firing line with your gun. *Always keep the barrel pointed up when off the firing line.*
Always keep your finger off the trigger until ready to shoot. Your trigger finger should lie outside & above the trigger guard with the finger extended (demonstrate). Never leave your trigger finger on the trigger.

Always keep the gun unloaded until ready to use. You will be given the command to load your shotgun. Only then will you place a round in the chamber. At all other times you must keep your action open. All shotguns are equipped with a safety device. The safety is a mechanical device that can fail. Our indicator that your shotgun is safe is the action is kept open (demonstrate).

Shotgun Firing Line & Range Commands

“There are two shooting points on the shotgun firing line. You can select from which firing point you want to shoot.

“Please note the limit markers on each side of the target area. At no time are you to point or shoot outside the limit markers.”

“You will be called to the firing line. At that time you are to put on your eye & ear protection, select a shotgun, (keeping the barrel pointed up) move to a firing point, take up a good gun ready position and wait for further instructions.”

“You will receive range commands that will walk you through the live fire exercise. Do not anticipate any commands.”

Review Range Commands & Procedures

- "READY ON THE FIRING LINE” shooter to pick up their shotgun, take their place on the firing line, & take up a good shooting (gun ready) position, but do not load.

- “READY ON THE RIGHT (or) READY ON THE LEFT” All shooters are in a good firing position and ready to load.

- “IS THE LINE READY?” allows a shooter with problems to raise an arm and/or call-out “NOT READY.” The range officer will immediately state: “THE LINE IS NOT READY”

- "LOAD” means shooters are given permission to load the authorized number of rounds and prepare for the shooting event.

- “READY ON THE FIRING LINE” means that the gun chambers are loaded and ready.
“THE LINE IS READY” means all shooters are ready to begin.

“COMMENCE FIRING!” signals shooters to begin shooting with the shooter giving the command “PULL.” Once shooters have shot the allotted number of rounds, guns should be brought to the gun ready position with barrels pointed down range & actions opened. If at any time you have problems (a miss-fire, jam, or mechanical issue) keep the barrel pointed down range and raise your hand for assistance.”

“CEASE FIRE - CEASE FIRE – CEASE FIRE!” is called by anyone if any incident occurs that indicates possible injury to some living thing should firing continue. Guns should be brought to the gun ready position & made safe.”

“CEASE FIRE—ACTIONS OPEN!” notifies shooters that all rounds have been fired and all gun chambers and magazines are unloaded with actions open.”

“IS THE LINE SAFE?” all guns are unloaded and actions open. “THE LINE IS SAFE” indicates that it is now safe to move off the firing line with barrels pointed up.”

Other commands you may hear

“AS YOU WERE” means to disregard the command just given
“CARRY ON” means to proceed with whatever was being done before the interruption occurred.

“After THE LINE IS SAFE command you will be directed to move off the firing line, return your gun to the gun rack, and move to the ready area. At no time should you move away from the firing line until told to do so. The gun barrel should always be pointed up when off the firing line.”

Skeet Machine Operation

“The setup, loading, un-loading, charging, and operation of the skeet machine will be accomplished by the range instructor. At no time should participants handle the machine unless it is in a safe condition and are told to do so by the instructor. Participants should always keep hands outside the safety bar surrounding the machine.”
Emergency Procedures, Hygiene, & Personal Conduct

“If there are any medical emergencies on the range they will be handled by the range instructors or the camp medical officer. Each range is equipped with a 1st Aid Kit for minor medical issues, fire extinguishers, and communications to call for medical assistance. If there is a medical emergency all shooters should immediately clear their guns, open actions and return their gun to the gun rack. Wait for further instructions.”

“There is no eating or drinking on the firing line. The Ready line should be kept free of trash and all personal items placed under the bench or table.”

“Lead particles and cleaning products are harmful if ingested in large amounts. All participants on the range are encouraged to wash their face and hands with cold water after shooting. Water is available at the range latrine.”

“Horse-play, loud talking or shouting, and unnecessary movement on the ready area will not be tolerated.”

Range Safety Brief/Rules, Pistol

“There are three fundamental rules for Gun Safety;”

*Always keep the gun pointed in a safe direction.* For our purposes, the only safe directions are with the barrel pointed UP and away from the head or with the barrel point DOWN-RANGE toward the target area (demonstrate). This includes moving around the firing line with your pistol. Always keep the barrel pointed up when off the line.

*Always keep your finger off the trigger until ready to shoot.* Your trigger finger should lay above the trigger guard with the finger extended (demonstrate). Never leave your trigger finger on the trigger.

*Always keep the gun unloaded until ready to use.* You will be given the command to load your pistol. Only then will you place a round in the chamber. At all other times you must keep your actions open. All pistols are equipped with a safety device. The safety is a mechanical device that can fail. Our indicator that your pistol is safe is the action open (demonstrate).

Pistol Firing Line & Range Commands

“There are eight shooting points on the firing line running from left to right. The target identifiers are numbered the same way, 1-8, left to right. Make sure that you are aiming at your own target when shooting.”
“Please note the limit markers on each side of the target area. At no time are you to aim outside the limit markers. Take care in elevating your pistol. Do not aim your pistol up to such a degree that you could fire over the berm.”

“You will be called to the firing line in groups of eight or less. At that time you may select a shooting position, have a seat, and wait for further instructions. At no time are you to touch the pistol until told to do so.”

“You will receive range commands that will walk you through the live fire exercise. Do not anticipate any commands.”

Review Pistol Range Commands & Procedures

- "READY ON THE FIRING LINE” shooters to take their assigned place at their firing point, put on eye & ear protection, pick up the pistol & take up a good shooting position, but do not load. Return pistol to the bench rest when ready.”

- “READY ON THE RIGHT, READY ON THE LEFT” All shooters are in a good shooting position and ready to load.

- “IS THE LINE READY?” allows a shooter with problems to raise their hand. The range officer will immediately state: “THE LINE IS NOT READY” if a problem is noted. “THE LINE IS READY” means all shooters are ready to begin.”

- "LOAD” means shooters are given permission to pick up their pistols load the authorized number of rounds and prepare for the shooting event.”

- “COMMENCE FIRING!” signals shooters to begin shooting. This command may be signaled verbally, by a whistle or other means. Once shooters have shot the allotted number of rounds, pistols should be returned to the bench rest with actions opened. If at any time you have problems (a miss-fire, jam, or mechanical issue) keep the pistol pointed down range and raise your hand for assistance.”

- “CEASE FIRE - CEASE FIRE – CEASE FIRE!” is called by anyone if any incident occurs that indicates possible injury to some living thing should firing continue. Actions should be opened and pistols returned to the rest.”
“CEASE FIRE—ACTIONS OPEN!” notifies shooters to that all rounds have been fired, all pistol chambers and magazines are unloaded with pistols retuned to the bench rest.”

“IS THE LINE SAFE?” all pistols are unloaded and actions open. “THE LINE IS SAFE” indicates that it is now safe to move on the firing line.”

Other commands you may hear

“AS YOU WERE” means to disregard the command just given.

“CARRY ON” means to proceed with whatever was being done before the interruption occurred.

“After THE LINE IS SAFE command you will be directed to return protection gear to the bench, stand up, clean up your spent brass, and proceed to the target area to remove/replace your target. You will then return to the firing line or to the ready line to prepare for the next relay. At no time should you stand up or move away from the firing line until told to do so.”

Emergency Procedures, Hygiene, & Personal Conduct

“If there are any medical emergencies on the range they will be handled by the range instructors or the camp medical officer. Each range is equipped with a 1st Aid Kit for minor medical issues, fire extinguisher, and communications to call for medical assistance. If there is a medical emergency all shooters should immediately clear their pistols and return their pistols to the bench rest. Remain seated until given further instructions.”

“There is no eating or drinking on the firing line. The Ready line should be kept free of trash and all personal items placed under the bench.”

“Lead particles and cleaning products are harmful if ingested in large amounts. All participants on the range are encouraged to wash their face and hands with cold water after shooting. Water is available at the range latrine.”

“Horse-play, loud talking or shouting, and unnecessary movement on the ready line will not be tolerated.”
Range Safety Brief/Rules, **Muzzle loading** Black Powder Rifle

“There are three fundamental rules for Gun Safety;”

**Always keep the gun pointed in a safe direction.** For our purposes, the only safe directions are with the barrel pointed UP or with the barrel point DOWN-RANGE toward the target area (demonstrate). This includes moving around the firing line with your rifle. Always keep the barrel pointed up when off the line. Avoid leaning over the muzzle during the loading process.

**Always keep your finger off the trigger until ready to shoot.** Your trigger finger should lay above the trigger guard with the finger extended (demonstrate). Never leave your trigger finger on the trigger.

**Always keep the gun unloaded until ready to use.** You will be given the command to load your rifle. Only then will you charge the rifle. At all other times you must keep the hammer at the half-cocked position. Never “cap” or “prime” the rifle until instructed to do so.

**Muzzleloading Rifle Firing Line & Range Commands**

“There are eight shooting points on the firing line running from left to right. The target identifiers are numbered the same way, 1-8, left to right. Make sure that you are aiming at your own target when shooting.”

“Please note the limit markers on each side of the target area. At no time are you to aim outside the limit markers. Take care in elevating your rifle. Do not aim your rifle up to such a degree that you could fire over the berm.”

“You will be called to the firing line in groups of eight or less. At that time you are to put on the eye & ear protection, select a shooting position, have a seat, and wait for further instructions. At no time are you to touch the rifle until told to do so.”

“You will receive range commands that will walk you through the live fire exercise. Do not anticipate any commands.”
Review Muzzleloading Rifle Range Commands & Procedures

- **"ON THE FIRING LINE"** shooters to take their assigned place at their firing point.
- **"READY ON THE RIGHT, READY ON THE LEFT"** All shooters are in a good position and ready to load.
- **"IS THE LINE READY?"** allows a shooter with problems to raise their hand. The range officer will immediately state: **"THE LINE IS NOT READY"** if a problem is noted. **"THE LINE IS READY"** means all shooters are ready to begin.
- **"COMMENCE FIRING!"** signals shooters to begin the shooting process. Shooters may “Snap Caps” before loading to clean nipples at this time. Shooters will continue the loading process and fire at their designated targets (a misfire, jam, or mechanical issue). **Keep the rifle in your shoulder, continue to point your rifle down range.** **Announce MISFIRE in a loud voice.** The rifle must be kept pointed down range for 2 full minutes after a misfire.
- **"CEASE FIRE - CEASE FIRE – CEASE FIRE!"** is called by anyone if any incident occurs that indicates possible injury to some living thing should firing continue. Rifles are to held pointed down range with fingers off the trigger until the situation is resolved.
- **"CEASE FIRE!"** notifies shooters to that all rounds have been fired, all rifle are unloaded with hammers at half-cocked with rifles retuned to the bench rest.
- **"IS THE LINE SAFE?"** all rifles are unloaded and hammers at half-cocked. **"THE LINE IS SAFE"** indicates that it is now safe to move on the firing line.

Other commands you may hear

- **"AS YOU WERE"** means to disregard the command just given.
- **"CARRY ON"** means to proceed with whatever was being done before the interruption occurred.

After **"THE LINE IS SAFE"” command you will be directed to stand up, clean up your spent material, and proceed to the target area to remove/replace your target. You will then return to the firing line or to the ready line to prepare for the next relay. At no time should you stand up or move away from the firing line until told to do so.”
Emergency Procedures, Hygiene, & Personal Conduct

“If there are any medical emergencies on the range they will be handled by the range instructors or the camp medical officer. Each range is equipped with a 1st Aid Kit for minor medical issues, fire extinguisher, and communications to call for medical assistance. If there is a medical emergency, all shooters should immediately place the hammers to half-cocked and return their rifle to the bench rest. Remain seated until given further instructions.”

“There is no eating or drinking on the firing line. The Ready line should be kept free of trash and all personal items placed under the bench.”

“Lead particles and cleaning products are harmful if ingested in large amounts. All participants on the range are encouraged to wash their face and hands with cold water after shooting. Water is available at the range latrine.”

“Horse-play, loud talking or shouting, and unnecessary movement on the ready line will not be tolerated.”

Range Safety Brief/Rules, Archery

“There are three main groups of Archery Safety Rules; rules while on the Shooting Line, rules while retrieving Arrows, and Range Commands.

Three rules when on the Shooting Line:

- Know and obey all range commands.
- Always point the arrow in a safe direction, either at the ground or at the target. Never dry-fire your bow.
- When done shooting, place the bow on the bow stand and step back from the shooting line (remain behind the shooting line and await further directions).

Three rules when Retrieving Arrows:

- “Retrieve arrows only when the range officer signals “Retrieve your arrows.”
- “As you walk forward to the target line, pick up any arrows on the ground (your own and all others as well).”
- “Only one archer may pull arrows from the target at a time; all others stand 6 feet back from the target at the target line.”
“Shooting Line & Range Commands: Whistle or verbal commands used on the range are:”

- **Two blasts on a whistle – “Step to the shooting line.”** Archers may step to the shooting line, pick up the bow, and take up a good shooting stance. *Archers may not pick up any arrows.*

- **One blast on a whistle – “Commence Shooting.”** Archers may pick up arrows and shoot this end. When done, place bows on the bow stand and step back to the shooting waiting line. If you have a problem, raise your hand to draw the attention of the instructor.

- **Three blasts on a whistle- “Retrieve your arrows.”** Archers may go downrange and retrieve your arrows. Follow the three rules for retrieving arrows.

- **Four or more blasts on a whistle – “STOP! or CREASE FIRE!”** Do not shoot. Immediately *let down*, place your arrows in the arrow quiver and your bow on the bow stand, and step back from the shooting line until the emergency situation has cleared.

“General Archery Safety Rules that should be followed”

- “Keep all arrows in the quiver until ready to shoot.”

- “Carry arrows in both hands with your palms facing down.”

- “Be sure the area around and beyond your target is clear before you shoot. Never draw a bow if anyone is in front of the shooting line.”

- “Always aim and shoot at a definite target; never shoot just for the sake of shooting. Be sure of your target and that it is safe to shoot at it. If you are not sure, take a closer look. If, after a closer look, you are still not sure, do not shoot. Always shoot within the range limit markers.”

- “Shoot only at targets that are thick enough to stop your arrow. Do not shoot if there is a chance your arrow might ricochet from the target or other objects and hit someone.

- “Use arrows that are the proper length for you.”

- “Never shoot arrows up in the air.”

- “Always use the two-hand method to remove arrows from target butts.”
• “Always walk, do not run on the archery range.”

• “When retrieving arrows from behind the firing line, lean your bow against your target face to signal others that you are down range.”

• “Always wear & use proper safety equipment, eye protection, including arm guard, finger tabs, and bow slings for long or Recurve bows.”

• “Always inspect your equipment before shooting.”

• “Always have an arrow on the string when shooting a bow. **Never dry fire a bow.**”

**Emergency Procedures, Hygiene, & Personal Conduct**

“If there are any medical emergencies on the range they will be handled by the range instructors or the camp medical officer. Each range is equipped with a 1st Aid Kit for minor medical issues, fire extinguishers, and communications to call for medical assistance. **If there is a medical emergency all shooters should immediately return arrows to the quiver and their bow to the bow stand. Step back to the waiting line and wait for further instructions.”**

“There is no eating or drinking on the shooting line. The Ready area should be kept free of trash and all personal items placed under the bench or table.”

“Horse-play, loud talking or shouting, and unnecessary movement at the ready area will not be tolerated.”
